

Background

After 22 years of providing Investment, Accountancy and other Financial Services to a varied client base in the South of England Thomas & Shona Paxton have returned to Scotland and are now, from a base close to Huntly, providing a range of services to support Individuals & Small Businesses locally.

As an actuary and accountant they have run their own small business (P&A) for over 14 years. For many years highly regulated by the FSA , P&A is at the forefront in terms of ICT hardware, software and internet technology.

Financial, Business and Property Services

Financial Services

Paxton & Associates Limited (P&A) was established in 1993 to provide specialist financial and investment advice to institutional clients such as Insurance Companies, Pension Schemes and Fund Managers.

For many years it was an authorised business under the Financial Services Act but in 2007 it was decided to cancel this authorisation to allow the firm to branch out into a number of new areas.

Although P&A continues to provide actuarial, bookkeeping and general investment services to its traditional client base it is diversifying its range of services offered and widening its client base.

Employing both an actuary and an accountant provides P&A with strong financial expertise.

These financial skills combined with the practical experience of running a highly regulated, ICT intensive small business provides a unique background for the provision of a range of complementary services to individuals and small businesses.

Business Services

P&A offer a traditional range of business services, to small businesses and individuals, such as:

- Bookkeeping
- ICT
- Training

P&A aims to work with their clients and their existing professional advisers in order to maximise the benefits to the business.

As well as providing a range of business services to their clients P&A is always interested the potential start up of a new business or taking over an existing business.

Ideally this would be providing support and backing to an individual (or team) with expertise in that particular business area but other situations may be considered.

Property Services

P&A currently offer a number of property related services including:

- Management
- Development
- Plant Hire
