# Plant Hire - Self Builders, Small Builders & Individuals

## Plant Hire

As part of our property business we are building up a portfolio of plant which as well as being used by ourselves is also available for hire.

This hire business is targeted towards the self or small builder where the charging structure is weighted towards usage time rather than period of rental.

This means that the user can have the use of the plant on site for a long term period at a relatively low cost and then pays an additional charge for the time actually used.

Takeuchi TB016

At present we are still building up the equipment we have available. However if there is any particular piece of plant which you would be interested in hiring please give us a call and we will consider this on an individual basis.

A list of the plant and equipment available and some sample prices are given opposite—full details can be found on our website: [www.panda.co.uk](http://www.panda.co.uk).
